PROFESSIONAL SUMMARY

Results-driven React Frontend Developer with hands-on internship experience building responsive, component-based web applications using React.js, JavaScript ES6+, and modern CSS frameworks. Proficient in REST API integration, React Hooks, Tailwind CSS, and Git-based version control workflows. Pursuing BCA with an 8.92/10 GPA. Passionate about delivering fast, accessible, and user-focused UI solutions aligned with modern frontend development best practices.

EXPERIENCE

Frontend Developer Intern — SaralTech™

Remote | Aug 2025 – Sep 2025

- Built 10+ reusable UI components using React.js and React Hooks, reducing code duplication and improving maintainability.
- Integrated 3 REST APIs via Fetch API to render dynamic, real-time data, enhancing application interactivity and user engagement.
- Designed fully responsive interfaces using CSS Flexbox, Grid, and Tailwind CSS for consistent rendering across all devices.
- Collaborated using Git and GitHub for version control, pull request reviews, and feature branch management.

PROJECTS

Weather App – SkyCast React.js · Fetch API · OpenWeather API · JavaScript ES6+

[View Live](#)

- Engineered a real-time weather forecasting app consuming the OpenWeather REST API, delivering live temperature, humidity, and forecast data.
- Implemented React Hooks (useState, useEffect) for state management and conditional rendering, improving component performance.
- Designed a responsive, intuitive UI that streamlined search and display workflows for an improved user experience.

OTP Validation System React.js · JavaScript · React Hooks

[View Live](#)

- Developed a secure OTP authentication workflow with real-time input validation, timer-based expiry, and automated resend functionality.
- Implemented robust error handling and user feedback, achieving a seamless and accessible authentication experience.

Portfolio Website React.js · CSS3 · Component-Based Architecture

[View Live](#)

- Built a fully responsive portfolio using React.js with reusable component architecture, showcasing projects, skills, and achievements.
- Applied mobile-first design principles ensuring optimal rendering across all device breakpoints.

Photo Gallery App HTML5 · CSS3 · JavaScript

[View Live](#)

- Created a responsive photo gallery with CSS Grid and Flexbox; implemented lazy loading and image optimization to improve mobile performance.

CodeMe – Coding Education Website HTML5 · CSS3 · JavaScript

[View Live](#)

- Developed a responsive multi-page educational web platform with accessible navigation, structured content, and internal linking.

TECHNICAL SKILLS

Frontend Development: React.js · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Responsive Web Design · React Hooks · DOM Manipulation · Component-Based Architecture

Tools & Technologies: Git · GitHub · REST API Integration · Fetch API · VS Code

Programming Languages: Java · C · C++ · SQL

Core CS Concepts: Data Structures · Algorithms · Problem Solving · Object-Oriented Programming

EDUCATION

Bachelor of Computer Applications (BCA)

Poddar College of Technology and Management, Bharatpur | Sep 2023 – Expected 2026 | GPA: 8.92/10

Relevant Coursework: Data Structures and Algorithms · Database Management Systems · Web Development · Object-Oriented Programming · Computer Networks
